

TriMech Expands Territory to Georgia

RICHMOND, VA – November 20, 2006 - TriMech Solutions, LLC, an engineering technology company, announces its new location in Atlanta, Georgia. The additional office expands TriMech's territory to include most of the Mid-Atlantic and South Eastern states (Pennsylvania, Maryland, Delaware, Ohio, Virginia, West Virginia, North Carolina, South Carolina – and now Georgia).

"As part of TriMech's strategic growth plan, we are very excited about serving our new clients in the Georgia marketplace," said TriMech's CEO, Steve Pelham.

The new location increases the number of TriMech offices/training facilities from 6 to 7. TriMech Services (www.trimechservices.com), a sister company, also operates from this location offering temporary staffing, permanent placement, and professional services such as mechanical design, and finite element analysis type projects.

The new office is located at 6000 Lake Forrest Drive NW, Suite 540, Atlanta, GA 30328.
Phone: 678-553-6260.

About TriMech Solutions, LLC

TriMech, headquartered in Richmond VA, provides various software applications and professional services to solve business challenges for the manufacturing sector. The company offers its clients competitive advantages through enterprise-wide solutions to streamline the engineering and manufacturing processes. As a part of the TriMech Companies, TriMech Solutions focuses on computer-aided engineering (CAE) and design tools including SolidWorks® for 3D design automation and industry-specific software. Formed in 1996, TriMech has helped more than 1,400 companies cut the time and expense of mechanical design, analysis, prototyping, and production and has worked closely with nearly 100 educational institutions.
